

Projected Michigan 2018 population and 5-year growth, 2013-2018

The number for each county below represents the projected 2018 population.

The color shading is an indicator of the annual percentage growth in population from 2013 to 2018 (see legend below).

As of March 7, 2014.
 Population growth/decline is based on projections provided by ESRI.
