Data compiled Oct. 29, 2015.

* Ranking based on net openings and closings for the third quarter of 2015. In the event of a tie, all companies at the relevant net openings and closings mark were included in the chart.

In an event of a merger or an acquisition, SNL retroactively adjusts current-year openings/closings to the single, highest-level holding company.

[^] Total branches for the institution are pro forma for completed mergers and acquisitions and any branch openings or closings since Sept. 30, 2014.

Branch openings and closings are limited to cases where opening and closing dates were available.

Top-level ticker is based on the home country stock exchange of the highest traded entity within the corporate structure.

Excludes credit unions.
