

Community bank median loan growth by asset size and type (%)

Q1'16 versus Q4'15 change

Data compiled May 6, 2016.

Analysis includes commercial banks below \$10 billion in total assets at the end of the first quarter of 2016 and fourth quarter of 2015, as well as at the end of the first quarter of 2015. The ultimate parent also must be below \$10 billion in assets for the most recent quarter reported.

Nondepository trust-chartered banks, industrial banks and companies with a loans-to-assets ratio below 25% in the first quarter of 2016 are excluded.

Data based on calendar-year quarters from regulatory filings.

Loan categories are not representative of the entire loan portfolios.
