

US average fixed mortgage rates (%)

— Avg. 15-year fixed — Avg. 30-year fixed

As of June 18, 2014.

Weekly average interest rate data from June 15, 2012, through June 13, 2014.

Interest rates used are the lowest rates available for the most creditworthy borrowers with an 80% loan-to-value. "Special" rates or Internet-only rates were not included.

Interest rate data may not reflect all pricing regions for each company and is based on current SNL coverage.
