Sources: SNL Financial, U.S. Treasury

Information pulled from the U.S. Treasury's TARP interest and dividends report, which is as of Feb. 28, 2013.

1. A TARP status of "pending merger" means the company has a deal agreement in place that will repay TARP.

2. As owed to U.S. Treasury as of March 27, 2013. Does not include TARP outstanding assumed by buyers of the TARP preferred shares or TARP debt.

3. Noncurrent dividends/interest is NA for companies whose TARP was auctioned prior to the reporting date of the U.S. Treasury's TARP interest and dividends report. Old Second Bancorp's TARP was auctioned subsequent to the reporting date of the report, so its amount of noncurrent dividends was disclosed.
